ROOFING

Mont Rochelle Hotel Franschoek

## About Us:

At JNA Roofing, we are focused on the design, procurement and construction of non-conventional roof structures and coverings. We do not limit ourselves to standard roofing and have a passion for complex designs and working with a combination of interesting materials.

Part of our services include the pole and timber structures for thatching as JNA Roofing has been actively involved in the process of designing and creating in this trade for the past 28 years.

### Who We Are:

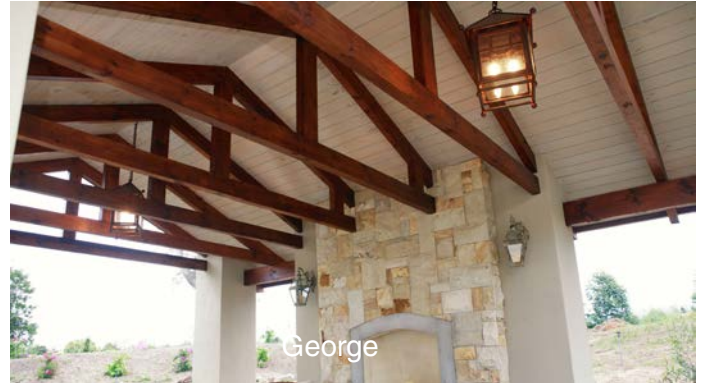

We provide our clients with the design, engineering, sourcing and constructing of standard roof structures, non-conventional concepts, ceilings, pergolas, pole structures and timber decking.

For us, it is all about the beautiful combination of vision, creativity, skill and the right material.

## Roof Sheeting

JNA Roofing are roof sheeting specialists with experience in working with anything from Diamondek, Kliplok, corrugated and IBR roof sheeting.

## Roof Tiles

Whether you need concrete or clay roof tiles, JNA Roofing can do it all. Our experience suits us well to advise the best roof tiles for your desired needs.

## Ceilings

Our variety of ceiling options include Poplar & SA Pine Tongue & Groove, Nutec Sloping ceilings, grooved plywood sloping ceilings, and Iso Pine.

## Timber Structures

Beautiful structures to contribute to the ambiance of a building is our passion; examples include poplar & SA Pine Engineered roof trusses and Closed Constructed thatched roofs.

## Roof Design

We provide our clients with a holistic roof design and construction function, which includes in-house design services by our experienced team.

## Roof Engineering

JNA Roofing provides a comprehensive in-house roof engineering solution. Our Technical Director is a Professional Engineer and is vastly experienced in this field.

## Roof Construction

Our Roof construction includes the procurement and supplying of all relevant materials, as well as the installation. The quality of materials and workmanship is key!

## Project Management

Even though we are comfortable in the subcontractor role, our experience and knowledge in project management, equip us to lead projects for our clients.

## Timber Decking

Timber decking can be a great contribution to the overall feel of a house. We offer a variety of Garapa, Balau, Maccaranduba, IPE, Jatoba and SA Pine.

## Timber Pergolas

A pergola is a great way of completing the look of a building. Whether it is a timber and lath combination or a modern timber and steel pergola, JNA ROOFING can do it all.

## Re-Roofing

To convert a roof from thatch to sheeting requires skill and understanding of the structure of thatched roofs. Our years of experience in the thatching industry equips us to re-roof seamlessly.

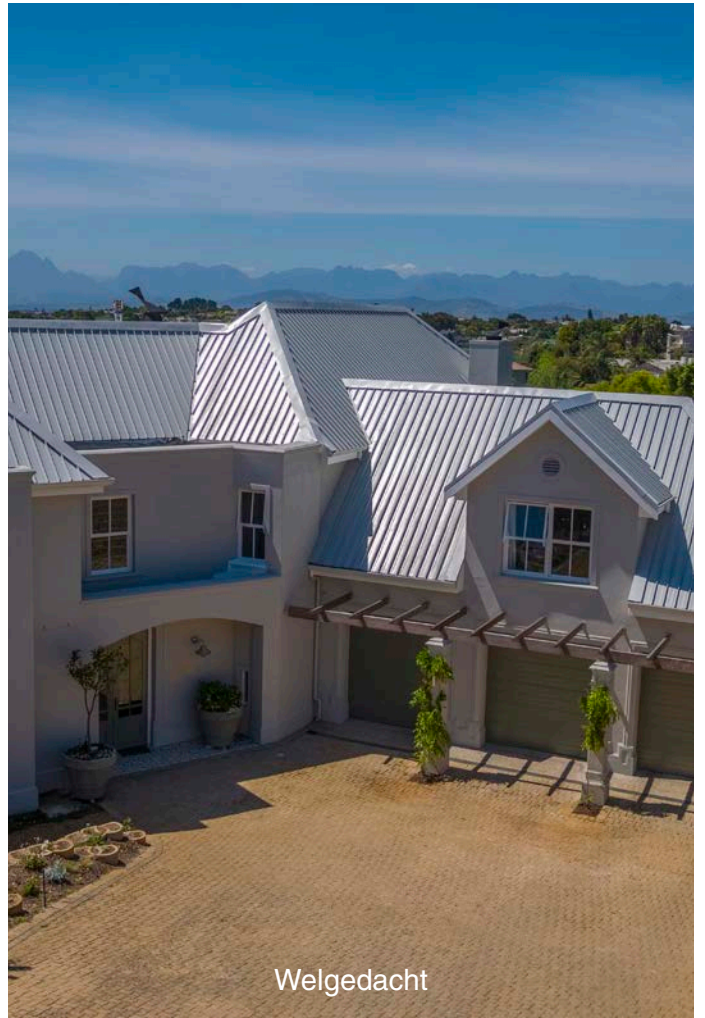

## Asbestos Removal

JNA ROOFING teams up with registered professionals to approve a one-stop solution of removing asbestos and replacing the roof covering with the option of the client's choice.
